**Section 1: On the assessment of institutional research performance**

This article distinguishes between top-down and bottom-up approaches to assess institutional performance, as well as ‘article downloads’ versus citation data.

---

Page 05

**Section 2: Emerging scientific networks**

In countries with an emerging science base, how much do key institutions participate in “outward” versus “inward” collaboration networks? This article shows different patterns in these networks for different countries.

---

Page 07

**Section 3: Heading for success: or how not to title your paper**

Does the choice of a certain title influence citation impact? **Research Trends** investigates the relevant properties of a scientific title, from length to punctuation marks.

---

**A “democratization” of university rankings: U-Multirank**

**Research Trends** reports on a new multi-dimensional approach of ranking universities. Its unique property is that it does not collapse different scores into one overall score, thereby increasing transparency.

---

**Section 5: Reporting Back: Mapping & Measuring Scientific Output, Santa Fe, NM May 10th 2011**

This event focused on scientific output measurements, methodologies and mapping techniques. **Research Trends** summarizes and reports back.

---

Page 13

**Section 6: Did you Know?**

...That there are now more than 37 h-index variants?
