Page 03

### Evaluating the Humanities: Vitalizing 'the forgotten sciences'

Dr. Alesia Zuccala provides an overview of quantitative studies of the Humanities. How sustainable are the Humanities as an independent field?

Page 07

### Trends in Arts & Humanities Funding 2004-2012

Gali Halevi and Judit Bar-Ilan investigate the major trends in the funding of research projects and grants in the Arts & Humanities. Is funding of the Humanities really on the decline?

Page 11

### Towards a comprehensive citation index for the Arts & Humanities

Dr. Wim Meester discusses the need for a comprehensive citation index that includes the Humanities. How is Scopus being adapted to meet this need?

Page 15

### Mapping the multidisciplinary of the Arts & Humanities

Matthew Richardson presents visualizations of the citation links in the Arts & Humanities. How multi-disciplinary is this field?

Page 20

### Publication languages in the Arts & Humanities

Dr. Daphne van Weijen investigates the role language plays in the Arts & Humanities. Do researchers in the field prefer to publish in their first language rather than in English?

Page 23

### Citation characteristics in the Arts & Humanities

Gali Halevi studies how frequently authors tend to cite older documents. Do Humanities scholars do this more often than their colleagues in other fields such as Physics and Astronomy?

Page 26

### The Arts & Humanities around the world

Sarah Huggett explores the geographical distribution of Arts & Humanities research. What are the most productive cities in terms of Arts & Humanities research output?

Page 29

### Did you know?

...about the influence of *Pride and Prejudice* on research?  
Matthew Richardson reports on the role this 200 year old novel plays in the scientific literature.
